## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 17-30 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The closest prior art is listed on the attached PTO 892 and IDS forms. None of the references or combinations thereof disclose or suggest generating a plasma from the process gas to deposit the film on the substrate, wherein the plurality of precursor gases are flowed into the process chamber such that the thin film is deposited at a center of the substrate more rapidly than at an edge of the substrate as required by the presently claimed invention. Therefore, Claims 17- 30 are allowable over the cited prior art.
